Beeline Activity: 3D Printed Ghosts

A HIVE ACTIVITY FOR ALL AGES

We're celebrating a year of beeline activities with another 3D printing project! Just in time for Halloween, design your own 3D Printed Ghost.

Customize your design in Tinkercad, then export your creation as a .obj or .stl and email your file and color preference (white, black, red, blue, or green) to hive@cldandj.org. You will be emailed when your ghost is printed and ready for pickup.

Submit your design now through 11/5.

Ghost design credit to JamesThePrinter.
